Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 August 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Applicants' response, which included amendment to claims 15, 71, 109, 118, 123 and 147, filed on 8/16/2004, is made of record. Claims 15-32, 71-85, 98-100, 109-124, 126-133 and 147-151 are pending.

In view of applicants' response 112 second paragraph rejection made in the previous office action has been obviated. The following new rejections apply.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 15-17, 20-24, 109, 118 and 119 are rejected under 35 U.S.C. 102(b) as being anticipated by Wee US 4,944,796.

Wee teaches several amino acetanilide compounds, which include generically claimed instant compounds, for use as herbicides. See formula I on column 1 and note the definition of R, R¹, R² and X_n. Also note with the given definition of R, R¹, R² and X_n. compounds taught by Wee include instant compounds. See col.3-4 for process of making and column 4 to column 14 for examples of compounds made. Particularly see compound 30.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1624

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 15-17, 20-24, 109, 118 and 119 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wee US 4,944,796.

Teachings of Wee as discussed in the above 102 rejection is incorporated herein. As noted above, Wee teaches several amino acetanilide compounds, which include generically claimed instant compounds, for use as herbicides.

Wee differs in not showing examples of all compounds generically claimed for formula I as shown in column 1. However, Wee teaches equivalency of exemplified compounds with those generically claimed for formula I with various variable groups R, R¹, R² and X_n with those exemplified in column 4 to column 14

Thus it would have been obvious to one having ordinary skill in the art at the time of the invention was made to make compounds variously substituted in amino acetanilide as permitted by the reference including instant compounds and expect resulting compounds to possess the uses taught by the art in view of the equivalency teaching outline above.

Allowable Subject Matter

Claims 71-85, 98-100, 123-124, 126-133 and 147-151 are allowed. Claims 18-19, 25-32, 110-117 and 120-122 are objected but would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Said claims are allowable as prior art search in the related area did not teach or suggest the compound, composition and method use embraced in these claims.

Conclusion

Any inquiry concerning this communication from the examiner should be addressed to Venkataraman Balasubramanian (Bala) whose telephone number is (571) 272-0662. The examiner can normally be reached on Monday through Thursday from 8.00 AM to 6.00 PM. The Supervisory Patent Examiner (SPE) of the art unit 1624 is Mukund Shah whose telephone number is (571) 272-0674. If Applicants are unable to
